

LINDE CONNECT:CLOUD

YOUR FLEET IN ONE PLACE

Linde connect:cloud delivers a new cloud-based fleet management solution offering full flexibility for fleet operators. They benefit from a free basic package including core fleet management functions that can be flexibly and cost-effectively supplemented by additional packages – for example, providing safety functions – paid for on a monthly basis.

Benefits:

Easy access from any location and at any time

Flexibility to book additional functions as required

Data security and GDPR compliance

Free basic functions and cost-effective optional add-ons only requiring payment when used

Available for all trucks with data transmission units and retrofit solutions

Fleet management as a service

CONNECT:CLOUD DELIVERS A NEW CONCEPT OF FLEET MANAGEMENT

SOFTWARE

Linde connect:cloud makes fleet management easy and convenient for fleet operators:

- Easy access to connect:cloud from anywhere at any time; the only requirement is a device with internet access and a browser
- Latest software version and full feature range always available
- All information in one place with a comprehensive, central view of data and software versions
- Linde provides hosting, software updates and data backup for fleet management as a service
- Data transmission unit and data transfer free of charge

ARCHITECTURE

The architecture of connect:cloud is very simple and user-friendly.

Software features are bundled and offered in separate packages:

- For each target group
- For different needs and budgets

Users can start immediately with basic features and then upgrade later to meet their individual needs.

CUSTOMER PACKAGES

Fleet operators can book various packages to meet your specific requirements, such as:

Basic Package Customer:

Basic fleet management

- Access control
- Operating hours
- Availability
- Occupancy journal

Energy Package:

Energy and consumption data, optimization

Safety Package:

Everything you need to make your fleet even safer

**The basic package with numerous core features is available free of charge.
Add-on packages can be booked individually for a monthly fee.**
